Ascent

$25,000+

90 days · follows Base Camp

The work moves from plan to build. The early movers from Base Camp lead, and the group working in the new tools grows past ten people. We start moving work off the software you rent and onto systems you own.

WHERE ASCENT FITS

MONTHS 1-3	MONTHS 4-6	MONTHS 7-9
Base Camp	**Ascent**	**Summit**
Discovery, training and a roadmap your team can follow.	The build: moving your work onto systems you own.	The whole company on the new system, led by your team.

WHAT HAPPENS IN ASCENT

Build

- Migration off rented software underway
- Work moves onto systems you own
- Your data stays in systems you control

Lead

- The early movers from Base Camp lead
- They coach the rest of the team
- The crew grows past ten people

Support

- Weekly check-ins with me
- Chat access between sessions
- Problems-first: the backlog sets the order

THE PRODUCTS BUILT ALONG THE WAY, AS YOUR BUSINESS NEEDS THEM

Guardrail · governance: your rules, set up and enforced in your Claude organization

Foundry · GitHub: a safe place to build for people who aren't developers

Vault · knowledge base: what your people know, searchable by your team and your AI

Keep · local AI: your own AI running on hardware you own

Cypher · private AI translation for confidential information

Then: continue to Summit, months 7-9, or stop here. Ascent stands on its own, and the data and the code are yours.
